Lab Rotation Evaluation (CHEM 294 students)

Evaluation by _______________________
CHEM 694 Mentor _______________________

What did you do in your lab rotation activity?

What did you learn from the experiment? Did you have a discussion with your CHEM 694 Mentor that helped you interpret the results?

Were you engaged by the activity? Regardless of how you felt about the topic.

Were you engaged by the topic? Regardless of how you felt about the activity.
Respond to the following statements.

1. Materials provided before lab were well-prepared and understandable.

2. It was clear what I was supposed to prepare before lab

3. I came to lab ready to participate in the experiment

4. The CHEM 694 Mentor was prepared to start on time

5. The activity ran smoothly

6. The CHEM 694 Mentor was able to answer my questions

7. The activity was engaging

8. There were substantial problems with instrumentation

9. We spent time talking about the results of the experiment

10. The activity ended on time and reached a conclusion

11. I would like to do something like this for my research project

What did your CHEM 694 Mentor do well?

What suggestions do you have for your CHEM 694 Mentor?
